DR. VICTORINO DE LA PLAZA.

The return of this distinguished Argentine after a five years' absence in Europe, Asia, Africa and North America, has been made the subject of merited welcome and demonstration, not only by his immediate friends, but by the students of his native Province, Salta, who feel justly proud of their highly eminent countryman. In joining in this hearty welcome to Dr. Plaza we not only give expression to our own sentiments of esteem, but also those of the foreign merchants and bankers of Buenos Ayres, who justly consider Dr. Plaza as one of the soundest and best men who ever held the "cartera" of Hacienda in this Republic. We avail of the present occasion to remind our readers that Dr. Plaza retired from office in 1885 because he refused to allow the National and Provincial Banks to touch their gold reserves until they first returned to conversion. The soundness of his views on this most difficult question is now, with the melancholy experience the country has had during the past five years, proved beyond all question; and had we all held on to Dr. Plaza and his policy, how different would be the shape of the market and the country to-day!

During his long years of travel he has we may say visited every land and all the principal markets of the world. When we were in London in 1888 we had the great pleasure of meeting him, and although he lived in humble fashion, he was constantly consulted by the first bankers of London, and his opinions were looked for on almost every subject connected with this republic. In his travels he visited the valley of Josephat and the lakes of Killarney, the falls of Niagara and the Giants' Causeway, the Pyramids of Egypt and the Tower of London; in fact we know of no Argentine who has travelled more than Dr. Plaza, and in all the great cities and centres he studied their customs and their institutions. Rich with such valued experience he now returns to his native land to find us all in the vortex of an unexampled financial crisis, a crisis which we should have all escaped had he remained in office as Minister of Hacienda.

It must also be borne in mind that Dr. Plaza held the national portfolio of Hacienda in times almost as critical as the present, when the National Treasury was without a farthing and the credit of the Republic in the London market infinitely lower than at present. In some respects the crisis then was even greater than now, and the Minister of Hacienda had far fewer resources to count on, yet he pulled the nation through, met everything, paid everything, save the Congress men's salaries, and placed the credit of the nation on a sound, solid footing. Such services cannot be forgotten, and the high reputation which he enjoyed in the first banking circles in London and Paris during his sojourn abroad testify to the esteem in which his name and his character are held.

The great and rapid progress of this country during the last five years is unfortunately only visible to Dr. Plaza now under the lurid light of a terrible crisis, and the clouds that overhang the market, and threaten the stability not only of our state banks but of the Government itself, will be all the blacker for our returned traveller, who comes fresh from climes where clandestine emissions of paper money are punished with fine, imprisonment and hard labor. No Argentine knows the London market better than Dr. Plaza. None have been in closer touch with its great bankers and money lenders, and here as we all stand at the doors of the telegraph office waiting for messages announcing the loan done etc., we may well pause and ask this distinguished Argentine his views and his opinions on this momentous question.

Thrice welcome indeed is Dr. Plaza at such a critical moment, and the time is by no means distant when we shall have again the pleasure of saluting him in his old office. The hands of the political clock swing round fast; they point in that direction.

OUR LONDON FRIENDS.

Nothing could be more soothing to Argentine nerves in these moments of depression and imminent collapse than the deep commiseration we inspire in London, where, from an Olympic height, they watch with keen anxiety the vicissitudes that have hurled this country into crisis and discredit. Such sympathy is tendered to Argentine misfortunes that we feel inclined to weep with our London friends, for bands of steel and gold lingots have forged such a chain of interests, not to speak of the more fragile "liaison" pledged in bonds and Cedulas, that every beat of the distressed Argentine heart throbs audibly in the tight clasp of the London sympathiser. Such is the reciprocity of sympathy that our London friends may rest assured that great as is their commiseration, greater still is our appreciation of that sympathy which is a mute promise of help to save us from collapse and themselves from the affliction that such a dire extremity would cause. We want all their sympathy, but we need far more of their gold, and our London friends know it.

By every mail we receive batches of papers and letters from London. In the careful and diplomatic style of leading articles we learn the causes of our crisis, and day by day we are taught how to mend our ways. In the free and familiar tone of the private letter, however, the pedagogue vanishes and we glean the intimate opinion of London and what we may expect: much of this intimate opinion we must reserve, for the sake of common urbanity, but all that Argentina may expect can be published. We may, however, state that people in London have formed anything but a favorable opinion of the Argentine Government, and they appear to believe the very worst of an administration that has plunged the country into the present mess. Some London journals, not the leading papers, go so far as to stamp in their columns statements about the public men of this country that leave room for an action for libel. Others, and these are leading organs, do not state emphatically, but they imply as much, as the London *Times*, for instance, in a leading article in its issue of 22nd ult. Verily, it is unfortunate for this country that there is no redress for such libellous literature, and we ask the men in power to pause and ponder over the terrible effect of such imputations if left unanswered and in impunity—all this is very discreditable and injures the fair name of the country.

A very accurate estimate, however, is formed by a London banker, writing of the Argentine crisis:—

"And yet, with all this, no earthquake has razed your cities; no epidemic, no war has decimated your population; no calamity has destroyed your property. Argentine produce is worth in Europe just as much now as two years ago. Argentine resources have not diminished, on the contrary. Land, even now, can be sold for its producing value. Nothing is changed, save that some few have, perhaps, paid what they could, many have not; yet credit and confidence have disappeared, trade is dislocated, and every second man is bankrupt, or suspected to be in difficulties. The countless millions said to be available for government appear to have vanished, and recourse is again had to the old, old device of fresh loans abroad and renewals of old borrowings, with protestations that they are not needed and are merely asked to oblige English bankers and money-lenders. It shows how frail a foundation existed for the boasted progress and the huge fortune of Argentina—a mere bubble bursting at the slightest atmospheric pressure."

Another correspondent writes that th[e] National Bank needs an undertaker f[or] its management. What sarcasm! Y[et] this correspondent did not know of [the] great straits of that Bank at the end of March and beginning of April. What [will] they now think of the Bank in Lond[on]?

Talking of Ex-Minister Uriburu, a[n]other London friend writes:—

"It is believed in the city, at least its River Plate circle, that Mr. Uriburu had courage enough to paint the situation in its true colors for the London magnates—

"Either you assist us or we collapse—

"If you come to our aid liberally, I shall pull through—

"If you don't, take the consequences.

"The money is forthcoming, but the conditions are somewhat bitter to swallow. The pill, moreover, must be swallowed, I think, and it will be useful as a tonic. There is nothing definitely settled yet, and I hear to-day that the Germans are backing out."

The above excerpts give some idea of what London thinks of Argentine affairs. We have purposely omitted all charges against the policy of the Government and the management of the Banks. One and all are convinced that "until Argentines retrace their steps in their free-banking system, it is useless to look for any sound foundation upon which to rebuild; but there is also much more to retrace and alter before they re-establish confidence in London." These are the news of a month ago; what are they now that they know the proportions of the excessive paper issues, the tottering state of the two great State Banks, and the aggravation of all our financial difficulties? Verily, but for the fact that the London bankers are quite as much interested in the improvement of this market as Argentines themselves, all prospects of a foreign loan would vanish into thin air.

LONDON LETTER.

THE *Times'* BUENOS AYRES CORRESPONDENT.

EASTMAN'S AND RIVER PLATE FRESH MEAT COMPANIES.

ARGENTINE RAILWAY MEETINGS.

LIEBIG COMPANY.

(From our own Correspondent.)

May 22nd.

Two columns and two-thirds of a column occupied by a letter from "Our Buenos Ayres Correspondent," and a leader thrown in in the *Times* of this morning quite wakened up the River Plate world in London. The letter and leader I despatch to you this morning in case an affable passenger, a good-natured person, or a supplementary post should fail. There is no occasion for me to say more than that the excellent and detailed information contained in the letter and its impartial and yet hopeful tone has had a good effect. The general opinion is here, what, of course, it must be with you, that if you can only keep yourselves clear of special interests, however powerful and however unscrupulous, the Republic will rapidly pull through its present difficulties. Your monetary position and the speculative values due to its inception seem as yet to have been surface evils. The industrial heart of the nation is not yet affected. A patriotic support to a strong Finance Minister and a willing and disinterested Executive must in such case speedily restore Argentine credit.

From the internal evidence and diplomatic tone of the *Times* correspondence from Buenos Ayres, I, for one, have no doubt of its authorship. The *Financial News* thinks that the prospectus for the issue of £150,000 Secured Debenture stock of the North-Western Railway Company is really a very modest effort, considering the opportunities which the subject afforded. Fancy issuing Second Debenture Stock and increasing the burdens of the Company for all time, in order to enable the contractors to pay dividend at the rate of 7 per cent upon Preferred and Deferred Shares for sixteen months after the line has been opened for traffic! The total amount required to pay a year's interest and dividends on this company's stocks and shares is £68,500 per annum. Competent railway men, who know the line and the country well, have expressed their opinion that the line will not earn as much as £68,000 in gross traffic in any single year during the next ten years. Investors who want a good 'lock-up,' therefore, will know where to apply."

The directors of Liebig's Extract of Meat Company report that the large profits of the last year must be looked upon as quite exceptional. Indeed they have lately had to pay more for cattle, which will tend to lessen their profit for next season. With a view to facilitate and enlarge the supply of cattle the directors, in full agreement with the River Plate Local Board and manager, have purchased the Bichadero Estancia, a neighbouring property of about 12 square leagues (about 39,000 English acres) from the Uruguay Pastoral Association for the sum of £77,000 inclusive of substantial buildings and wire fencing round the whole of the property. The dividend declared for the year is 25 per cent.

The *Financial News* says:—"We print in another column details of the proposed purchase by Eastman's of the River Plate Fresh Meat Company. It is quite clear that the directors of Eastman's are not acquiring a failing concern; on the contrary, the business of the River Plate Company has assumed large proportions, and is still growing at a rapid rate. In the twelve months ending April 30 its importations of sheep for slaughter, freezing, and export were 400,000, against 300,000 in the previous year. The directors of Eastman's, in order to acquire this great business and two others in New York, propose to issue 58,500 new shares, so that the undertaking promises to become one of exceptionally large proportions, and of an even more remunerative character than it has been hitherto. The criticisms that have been directed against the amalgamation with the River Plate Company have evidently proceeded from persons in entire ignorance of the position and the prospects of the combined undertakings."

As this matter is interesting I append the text of the Eastman Company's directors' circular to their shareholders.

"Your directors having had proposals laid before them regarding amalgamation with the River Plate Fresh Meat Company, Limited, London, and several businesses in New York, have come to the conclusion, after careful investigation, that such amalgamation will be beneficial to the company, and they now recommend the same to the favourable consideration of the shareholders. The business of the River Plate Fresh Meat Company, Limited, consists of buying sheep in the River Plate district, slaughtering, freezi[ng] ... [torn] ... day. ... 4,00[0] ... more th... which ... buildin[gs] ... ings ar[e] ... fitted ... machi[nery] ... front ... froz[en] ... ocea[n] ... is a ... th... pa... stea[mers] ... city ... [re]gular audit of the books of the River Plate Fresh Meat Company, Limited, has been made by Messrs. Cash, Stone and Co; and the books for the past two years have also been examined by Messrs. Price, Waterhouse and Co., who have satisfactorily reported to us thereon. Mr. George W. Drabble, chairman of the River Plate Fresh Meat Company, Limited, has consented to join your board in the event of this amalgamation receiving your sanction. Your directors consider this an important advantage, in consequence of Mr. Drabble's knowledge of that company's affairs and his long and extensive experience of general business, both in the River Plate and in England.

"The New York proposals are that we acquire the businesses of Messrs. William Ottmann and Co. and Beinecke and Co., two well-known firms, carrying on business as meat salesmen, etc. They kill about 600 cattle per week of the very best quality obtainable, and supply the bulk of the best hotels, clubs, restaurants, etc., in New York and neighbourhood. They are also the packers and proprietors of the 'Durham' and 'Gotham' brands of Extra India Mess Beef, and several other well-known brands, and have extensive premises and plant, including valuable refrigerating machinery. There are three partners in each business, and they will all enter into a contract to manage the businesses for seven years, and not to start in opposition in any way for 20 years. They will also assist in the management of Eastman's Company of New York, where their thorough practical experience will be of great service. The 600 cattle per week will be slaughtered at the abattoirs of the Eastmans Company, and a great saving will be effected in labour and much better prices realised for offal as compared with the present arrangements. The two firms have been well known to Mr. T. C. Eastman for over 20 years, and he strongly recommends the proposed amalgamation. Your managing director, Mr. J. J. Thomson, has just returned from New York, where he, with Messrs. Eastman and a member of the firm of Messrs. Price, Waterhouse and Co., accountants, London (one of your auditors), made an examination of the books and general working of the businesses for the past three years, the result of which was quite satisfactory.

"To enable your directors to acquire these businesses and to provide working capital, it will be necessary to issue 58,500 new shares, in the same proportion as to preference and ordinary as the present shares of the company, namely, four-ninths preference and five ninths ordinary shares. Of these new shares the vendors agree to accept in part payment 16,672 preference shares and 18,590 ordinary shares, leaving 9328 preference shares and 13,910 ordinary shares, of which the directors propose to offer about 6666 preference shares and 8333 ordinary shares to the shareholders on our register on June 5th next, at a premium of £2 for each preference and £5 for each ordinary share, in the proportion of one share in six on their holdings; but any shareholder of the company who holds a number of shares not divisible by six without remainder shall not be entitled to any allotment in respect of the odd shares or remainder. The balance of shares, which will be about 2662 preference shares and 5577 ordinary shares, the directors propose reserving for future issue.

"Part of the share capital reserved for future issue is intended to be applied for the purchase of a third business in New York similar to those before described, should the results of a year's working of the said business from this date be found entirely satisfactory. The requisite resolutions to give effect to the foregoing proposals will be submitted to an extraordinary general meeting, and also to separate meetings of the two classes of shareholders, according to the accompanying notices."

The meeting will be held at the Cannon-street Hotel on the 27th instant.

Many of your readers will be interested in an enclosed account of the sale of "a King's Freehold Shore" in the New River. An undivided share had not been sold previously for three centuries. The enormous increase in the value of that strikingly individualist monarch, James the First's shares in the New River property is a matter of history; the shyness of the buyers at the recent sale will also be a matter of history, as it indicates a want of confidence in "unearned increments."

BUENOS AYRES HARBOUR MISSION.

To the Editor of THE STANDARD.

Sir,

The following letter from the London *Times* will interest many of your English and German readers. We beg to tender our hearty thanks to those passengers by the s.s. Magdalena and the Purser, who kindly made up a small sum for the above mission, which will be duly acknowledged at our public meeting and paid over to the treasurer.

The English Consul generously responded to the letter in your issue of Sunday, but progress of the scheme will be duly reported by the committee in your columns.

I have the honour to be, Sir, on behalf of the sailors,

Very faithfully yours,

Edward W. Mathews.

To the Editor of the *Times*.

Sir,

Many of your readers will be interes[ted] to know that the popular ... [torn] ... possible seamen, who are generally strangers, with more foes in the shape of crimps and land sharks than friends.

The Emperor's gift is opportune, for the day after its receipt the Secretary sails for Buenos Ayres to start a Mission to Seamen in that mighty port. Who would believe that last year there entered 2,932 steamers and sailing ships under our British flag, having no less than 107,202 seamen on board? Yet in this port there is neither sailors' home, institute, nor agent whose special duty it is to care for seamen. Crimping in its worst forms is rampant. No wonder that four British seamen were recently drowned at the Boca in one week. Other ports in the Argentine, Uruguay, and elsewhere are equally destitute. But we hope that by the generous help of friends on both sides of the Atlantic, both for the honor of the flags and the good of our brother sailors, this sad state of things will be shortly remedied.

Lord Salisbury has kindly given an introduction to Her Majesty's Minister there, and it is hoped a suitable plot of ground will be given; but special sums will be required to erect a sailors' home or institute, which, with a suitable agent, would be a centre of protection and elevating influence for all seamen visiting that metropolitan port. Anglo-Argentines and others ought to be interested in so great and good a work for our absent seamen. Contributions might be sent to the Lord Mayor, who this month presided over its 72nd annual meeting at the Mansion House, and warmly commended this international character of the Society's operations; the president, Lord Brassey, 24, Park Lane; the treasurer, Mr. Thomson Hankey, Bank of England; or,

Your obedient servant,

Edward W. Matthews

Secretary British and Foreign Sailors' Society.

Sailors' Institute, Shadwell, London, E., May 17.

Railway Items.

The expropriation of Mr Avelino Arenas's land on the Andine Railway will cost the Government $11,000. The expropriations on the Salta and Jujuy Railway, Central Northern Extension, recently effected by Mr. Serrey, amount to $80,000. These sums are to be immediately paid.

Judge Cigorrag has decided in the case of A. Pelaez & Co. v Gran Ferro-Carril Central Sud Americano (Chaco), that the plaintiffs shall not sell the concession of said railway.

Messrs. Lucas, Gonzalez and Co. are to supply 29 locomotives for passenger and 33 for goods traffic on the Central Northern and extensions. We believe that according to law 75 should be the number. At present the contractors are running 33 locomotives.

The Anglo-Argentine will take over the Lacroze Tramway on the 1st of next month.

The new metropolitan tramways are now running and the public are quite enthusiastic with the cars, which are gems, and probably the finest ever brought to the Plate. There is only one section of the line opened as yet: from the Alsina road to the Recoleta, and the company are already doing a good business. We purpose in a future issue giving full particulars of this new concern.

The National Railway Board approved the following yesterday: — Concession asked for by F. Green and Co. for a line from Santiago del Estero, through Rio Hondo, to the La Madrid Station on the Central North line. Concession asked for by Brian and Co. for a line from Zarate, through Ramos Mejia and San Justo, to the South Dock, South Barracas. No guarantee for either concession.

The Board also approved the tariff of the North Eastern. The opening of this line to public traffic, from Monte Caseros to Curuzu-Cuatia, has already been sanctioned.

We clip the following comments from *Herapath's* received by the last mail:—

"It is not surprising that the Buenos Ayres and Ensenada Port stock should have gone up sharply on the chairman's speech at the meeting. According to his view— and he ought to know—the Company may be said to have laid the foundation of its prosperity. By means of the lines it has acquired, with the sanction of the Southern Directors and others interested, the Company have command of the great docks at the port of La Plata. To use a Johnsonian phrase, there may be in that fact alone the "potentiality of wealth beyond the dreams of avarice." The increase of 29 per cent. in the number of first class passengers, 6 per cent. in seconds, 23 per cent. in seasons, 45 per cent. in goods, and 21 per cent. in parcels last year, shows what a capacity for expansion the system possesses. A large amount having been spent on the permanent way last year, it is hoped that a lesser amount than usual will be required this year—in fact, the chairman hopes that an extra 2 per cent. may be earned by the reduction in working expenses."

EDITOR'S TABLE.

Although the Clerk of Weather stopped weeping over River Plate woes, yesterday, the feeling about the Loan was as lonely as ever; but as it has now become unfashionable to mention this eternal operation in polite society, we'll say no more about it.

The *Diario's* orchestral paragraph about the Clandestine Shinplasters yesterday gave people an appetite for dinner by inducing laughter. Cordoba, of course, wields the conductor's baton; Catamarca plays out of tune on her own hook, with the notes made in Calle San Jose; Santa Fe and Mendoza, the big drum and trombone, all the others pegging away at different issues, leading up "crecendo" to a "fortissimo" crash that will put out the gas and bring down the house before the performance comes to a close.

"Niniche" at the Politeama on Tuesday was like a truffled delicacy. Mme. Judic, who created the role, was as fresh and effective as when we saw her years ago in Paris: if at all, she was better than ever. The audience was more exacting than usual and Mme. Judic had to respond to several 'encores.' Altogether a most delightful evening, enhanced by the inclement weather outside. We hope the company will repeat "Niniche" before the end of the month.

Talking of the Politeama, the benefit performance in honour of the company's Regisseur-General, M. Jean Coquelin, comes off to-night. The "piece de resistance" will be Augier's famous and delicate comedy Gabrielle. M. Coquelin Snr. will act the part of Julien Chabriére, the husband of Gabrielle—one of the actor's most successful roles. Mme. Judic will take the part of Adrienne Tramponet, whilst Mdlle. Barety will play Gabrielle. M. Duquesne will be Stephane, and M. Jean Coquelin, the hero of the night, will appear as Tramponet, one of his best characters. Mme. Judic, as a proof of her special esteem for Jean Coquelin, will sing two new chansonnettes, and Coquelin Snr. will recite the famous monologues La Robe and Les Ecrevisses. M. Coquelin has specially reserved for his son's benefit night the rendering for the first time—a premiere—of "Le Fluide." In this rollicking farce the leading roles will be in charge of Mdlle. Lender, famous for her toilettes, and Duquesne and Jean Coquelin. The variety in the performance insures a full house for the Politeama to-night. Our readers will regret to hear that the company will leave the Plata in the beginning of next month.

Our mails from Chile report stiff rioting in Valparaiso, caused by public disgust with the proceedings of the Municipality. The people were so excited that the police had great difficulty in preventing their sacking and firing the Municipality. The "English of South America" are now in a very ugly humour with their rulers, National and Municipal, and may, very probably, see fit to make an example of them.

A false alarm of a fire in Tucuman, between San Martin and Reconquista, was reported to the Bomberos last evening at about 6 p.m. The Bomberos were quickly on the spot, but not even smoke could be discovered by the public.

The *Chilian Times* says:—"The severest shock which has been experienced here for many years occurred last night about 12.5. The shock partook of the character of a "terremoto," but fortunately no damage of any consequence has been done, although walls, roofs, windows and doors, creaked and rattled terrifically during half a minute or so, and it may be safely stated that a feeling of alarm has prevailed, to a greater or lesser extent, in every household."

The Asistencia Publica has started to fight the small-pox epidemic with a learned essay on the disease, a column long, addressed to the Lord Mayor "pro tem." It also recommends several more practical steps than the essay to check the foe, amongst them vaccination, a preventive that has enjoyed for a long time almost as general acceptance in the world as Holloway's Pills or Pear's Soap.

The inclement weather has inspired some good Christian with the happy idea of proposing to the Municipality the erection of a Night Refuge for tramps. That of charging the poor devils 20 and fifteen cents for each night's lodging is neither so happy nor so Christianlike. Where are they to get the cents? And if they had them, we fear that most of them would head for the nearest "almacen" instead of the N. R. To be of any use the Refuge must be free; or at least the charge should be much nearer the nominal boundary than twenty cents.

Mercedes (San Luis) was treated to a mild shock of west-to-east earthquake on Monday night. Nobody hurt, and no damage.

The programme for Miss Santos's wedding in Montevideo which took place there yesterday was somewhat original. After the knot was tied in San Francisco Church, tenor Aramburu in the choir, the happy couple entered a carriage lined in white silk, drawn by Russian horses covered with palls of the same material and colour, and proceeded to visit the tomb of the bride's late lamented father which was decorated with flo[wers] ... the occasion. "Now that all the civilian employés of the arsenal and other military departments have come out in full uniform, Rio begins to look like a Delaware peach orchard in full bloom.

"A telegram was received on Saturday stating that the Buenos Ayres cricket club had accepted the challenge from Rio and would leave there on the 24th. Perhaps the "glorious Fourth" will be celebrated with a well contested match.

"According to a recent decision, naval officers on duty on the staff of Gen. Deodoro and of Admiral Wandenkolk will be considered to be at sea. And very properly so!

"A law student aged 19, at Pernambuco, recently committed suicide because, as he stated in the document he left, he "recognized inconveniences in the continuation of his existence".

"In Buenos Ayres recently only five doctors applied for seven vacancies for medical inspectors of steamers. In Rio there would have been 63."

The Governor of Catamarca is a strict Constitutionalist. H. E. has absolutely gone to the trouble of asking the Minister of the Interior to be allowed to take a centimetre of water daily from the tank in the railway station, to start a fountain in the Plaza. Of course the Minister has given the water with the greatest pleasure in life; but some Provincial Governors take, now and then, things much stronger than water, without asking the Minister's permission.

The time for selling off the old passenger mole by auction is fast approaching. The piles are of the finest hard wood, and will be worth buying: the flooring is of the worst soft wood, suitable for making matches.

It has been established beyond doubt that the "Marseillaise" was composed by Jean Baptiste Lucien Grison, the old choir master of St. Omer. Rouget de Lisle must now come off his patriotic perch.

Buffalo Bill receives about ten letters a week from women who want to marry. Some of these epistles are from Americans, though most of them are from Europeans.

The last issue of the *Bombero* is interesting, especially its account of great fires in Paris.

At the recent Fine Arts Exhibition in Turin King Humbert paid this country a delicate compliment by including in his purchase of paintings one styled "An old Man's head," by an Argentine painter, Sr Ernesto de la Carcova.

The numerous friends of Her Majesty's Minister Plenipotentiary in Copenhagen, who was Chargé d'Affaires here some years ago, will be glad to read the following paragraph from the *Gazette* in connection with the last Birthday Honours conferred by Her Majesty. We offer our esteemed friend Mr. Charles Lumb our congratulations on the well-earned honour to his relative:—To be C. B. Hugh Guion Mac Donell, Esq., C. M. G., her Majesty's Envoy Extraordinary and Minister Plenipotentiary to the King of Denmark.

We have been favoured with a copy of the long indictment of the Mayor and corporation of Las Flores by the townspeople. We spare our readers the melancholy details. One of the charges against the Mayor is that he has feathered the nest of a prodigious tribe of relatives to the 31st cousin degree, at the expense of the town.

Stanley has made a present of his famous white cap to the African Exhibition in London. He made it himself from a piece of tent canvas, during his last visit to the darkest of continents.

A silk handkerchief, so often recommended for wiping spectacles or eyeglasses, is not good for this purpose, as it makes the glasses electrical, and causes the dust to adhere to them.

Letters from Salto say that the camps are getting bad there fast, and estancieros are hurrying away their flocks to fresh camp, which is very hard to find. It looks as if the winter, which is erroneously supposed to only commence on the 21st inst., will take a good deal of the bloom off the peach of the high shinplaster prices which estancieros received for their wool last season.

If you want to know for a certainty whether the dog that has destroyed your pantaloons in the effort to get at your calves is mad or not, don't ask him the question, but kill him as a preliminary. Then rub a bit of meat on his teeth and muzzle, and offer it to another dog. If he run away from it, his defunct brother was "non compos;" if he eat it, deceased was simply the victim of his own rudeness in attacking your pantaloons, but quite sane.

Buenos Aires won the great-football match at Montevideo. The *R. P. Times* gives the following description of the game:—The Buenos Aires team were entertained at breakfast at the Hotel de Paris, and after an excellent lunch proceeded to the Cricket field, where, despite the sodden state of the ground and the rain, play was started at 2.30. It may be easily imagined that from the slippery state of the ground very few good runs were ... and the backs on either side had ... to do, the game bein[g] ... ries of loose s... which Mon... best... [torn] ... tertainment, given as usual in the English Assembly rooms, consisted of Part I, Music, which for taste in the selections and general "eclat" we cannot find too much praise, Part II., The drama, as exemplified in J. Maddison Morton's ever famous farce "Betsy Baker," which as a sample of what Santa Fe Amateur Dramatic talent can do certainly places it in the first rank. The Concert was opened by a Pianoforte Solo (Spanish Patrol) executed by Mr. T. Inglis-Rudman with his usual taste and finish, followed by the well known song "A Warrior Bold" which Mr. A. Salinger gave most excellently. Señor Sambarino then performed on the violin a selection from Gounod's "Faust" accompanied on the piano by Mrs. Lohre, a combination of musical talent well worthy of St. James's Hall. Mr. T. Inglis Rudman, the well-known Santa Fe all-round artiste, then favored the audience with the song, "The Storm Fiend," in which he surpassed himself and brought down the house, though time would not permit of any "encores." Mr. Schnoor then sang Rotti's "Prohibizione," with extreme delicacy and expression, and was followed by Mr. Andersen, whose magnificent bass voice did ample justice to Mozart's Arias from Flauta Magica. Messrs. Bosshardt and Hardin then gave a duett, cello and piano respectively, "Romanza," which was executed in a most able manner, and with which the vocal duet, "Serenade," may certainly be bracketted. An arrangement of Rossini's "Semiramide," as a pianoforte duett given by Mrs. Lohre and Mr. Bosshardt with an unexcelled brilliancy of execution and perfection of finish brought the musical portion to a most excellent conclusion.

For the dramatic performance the following, we cannot select too powerful adjectives and find ourselves reduced to the expressive and comprehensive term first-rate. It would be superfluous to monopolise valuable space with a sketch of the plot of so well-known a farce (which, by the way, by a happy idea was fully explained in pure Castilian on each programme) but in commenting briefly on the individual performances of the artistes, the acting of Miss Lottie Venn as Betsy Baker was certainly the hit of the evening, and for so young and charming a novice in her "debut" augured latent artistic and dramatic talent of no mean order, whilst her tasteful and "chic" costume as the pretty little laundress maid, one of 16 sisters, was positively bewitching. Miss Kate Rork as Mrs. Mourer was also extremely good and acted her part, one of no mean difficulty, with a degree of finish and excellency of delivery that well merited the applause she received. For the actors Mr. Cecil Erroll (Mr. J. A. Handy) as "Marmaduke Mourer" and Mr. G. Ellis Williams (Mr. T. J. Rudman) as "Crummy" were both in grand form and, as was to be expected of their well known histrionic talent, acted in their usual brilliant and masterly style, their respective "make ups" being faultless.

The Scene, Drawing Room in Mouser's House was most excellently mounted "fairwoman's" taste being markedly discernible in the appointments, and we cannot conclude without a word of praise to the effective stage arrangements as conducted by Mr. Turner. In a word, Wednesday evening's entertainment in Santa Fe may most deservedly be characterized A. 1. first rate.

POLLUTION OF THE PARANA.

To the Editor of the STANDARD,

Dear Sir,

Many of your readers would feel grateful to you were you to publish a translation of the report of the special commission appointed by the Government to inquire into the Rosario sewage disposal question.

The report is short and its terms are, in my opinion, far from warranting the conclusions arrived at by the writers in the daily papers and by those persons in Rosario whose information on the subject appears to be based, not on the report itself, but rather on the one-sided statements which have appeared in the native papers. I think you will find the real opinion of the Commission to be as follows:—The Commissioners are unanimous in regarding the contamination of water courses by sewage as a violation of hygienic principles; modern investigations having demonstrated that water when polluted by sewage matter is, or may be an effectual means of distributing and propagating certain endemic disease germs. They agree in regarding the River Parana as being *very difficult to contaminate*, on account of its enormous volume of water, rapid currents and great depth.

Nevertheless, in consideration ... future probable i... alo... [torn]

ON 'CHANGE.

PRICE OF GOLD TO-DAY.
First Ring............ 234.00

Wednesday, June 18th.

Nothing new about the loan was again the comment that ruled conversation on 'Change to-day, and as it was well known that it is not interrupted cable communication that delays the progress of the loan negotiations, since the cables are in working order, bears began to feel qualms of apprehension and to review the state of the market as well as the probable amounts of gold sold in "descubierto" in advance of the loan. Considering all the circumstances of the case, the terms offered and accepted and conditions proposed, it seems tolerably certain now that the hitch lies in the stipulation made by the bankers that the contract must be made in England and subject to the English laws, which is scouted by Dr. Garcia, who holds out for the signing of the contract here. This divergence of tastes in detail retards the business and leaves the market at the mercy of uncertainty and doubt. Every day's delay gives the bulls fresh hopes and fresh strength; they see a fresh hitch in every hour that passes without the expected news arriving, and the bears, confident though they be that the loan is assured, see the ground slipping from under them, the premium beginning to flutter again and the fatal day of settlement approaching, without the power to strain a nerve to help themselves. The fortunes of the fight are inseparably linked with the loan, and the bears might as well try to lift themselves by the hair of their heads as prevent gold from rising, unless the loan news comes, and comes speedily.

Meantime, gold is not only stiffening, but stocks are weakening, giving way, indeed, to a far greater extent than the rise in gold would warrant. For this there are various reasons. It is known that the European orders to buy have been filled, and these orders were such a great help to the market that their lack must be all the more severely felt, whilst at the same time, according to telegrams received from London, both National and Provincial Cedulas are down 2 o/o. This accounts for the weakness of Cedulas to-day and the great falling off in the demand, whilst National Bank Shares, Catalinas and Constructors all collapsed in sympathy, completing the state of depression in the stock market. The French broker who bought the sovereign stock yesterday for European account took up a further lot of 500 shares to-day, also for cash and to go abroad, but even this could not stem the fall, which seems to be gaining strength daily. The market is most pronouncedly weak all round.

The following is a summary of operations effected this afternoon during the first ring:—

The sale is reported effected of eight leagues of land in Santa Fe, to the north of the province, for 80,000 dollars, buyers Messrs. Blatte and Bergmann, seller Mr Eugran.

The salient feature of the market is the rise of exchange, as bills were reported passed to-day as high as 49d, while yesterday a leading firm placed £100,000 ... London at 48½d, which means ... 48¾d at ninety days. Sterling is most offered and no takers at 48½d, whilst National Bank of Montevideo bills offered in this market could not be placed. The rates are quoted 48½d, 5.07-08 francs Paris, 5.09-11 Antwerp and 4.11 marks.

A telegram has been received from London announcing the shipment of £200,000 in New York for the Plate via England. In the Bolsa it was said that large shipments of the precious metal have been made in London and Rio for this market.

Dr. Cigorraga has sent a note to the Camara Sindical of the Bolsa requesting to have the advertisements of judicial auctions posted up in the hall. As is well known, these advertisements are by law only required to be published in two newspapers and so escape the attention of the business public, which in future will not be the case if Dr. Cigorraga's note meet with a satisfactory response. It is to the general benefit to have these advertisements made as public as possible.

The Central Argentine Land Company, which holds a 32 leagues' concession in the National Territories, has asked Government to be allowed up to 30th November to send in the surveys.

According to advices from Esperanza, the expedition to the Chaco was going ahead most successfully, not having met with any Indians and finding the camps splendid and water good; six estancias were formed with 30,000 head of cattle.

A fair business in gold was done at the second hour and rates kept more or less stationary, having risen to 235 and closed sellers at 233.50. No news of the Loan was again the refrain, and brokers say they are

fairly not of it, which might also be said of the market, where its prompt conclusion, whether in a favorable or unfavorable manner, is looked upon as infinitely preferable to the present uncertainty. The salient feature of business in stocks was a decline in National Bank Shares which a leading operator ascribes to a bullish 'ruse', the market being allowed to drop to buy in cheap; although the Shares were down to 166.50 cash, they left off in demand at 170. Constructors were freely offered at 33 and Catalinas at 38.50.

The following is a summary of the business effected in stocks during the second ring:—

One of the factors in the rise in exchange is the tightness of money, as the banks still restrict discounts and first-class "firmas" have to pay 2 o/o a month. This is tightness with a vengeance.

To-morrow the well-known auctioneers Funes & Lagos will make their second effort to dispose of the Madero Port lands, and it is to be hoped that the attempt will be more successful than the previous one. The lots to be offered are six blocks on the 1st dock, and the upset price is $15.33 gold per square metre, which is two thirds of the valuation. The conditions are 25 o/o cash and the remainder in three "pagarés" at one, two and three years' date, bearing 6 o/o annual interest. The auction will take place at 1 p.m. in the auctioneers' mart, Calle San Martin.

The English Bank of the River Plate has declared an interim dividend of 5 per cent.

The tide of emigration is swelling. The s.s. Umberto I. sailing on Friday takes 400 steerage passengers, the s.s. Orenoque on 22nd a further lot of 200 and the s.s. Vittoria on the 24th 600, making a total of 1200 in all and exclusive of those who may book before dates of sailing. We are fast arriving at the stage when the immigrants will be less than the emigrants.

The Provincial Mortgage Bank is going to foreclose and realize 120 recalcitrant debtors unless they arrange their accounts before the end of this month, the last period of grace that will be accorded. The properties mortgaged run through all the series with sole exception of series P, as follows:—

Series B	1	Series J	25
Series C	1	Series K	36
Series D	2	Series L	36

The Fray Bentos "saladero" will top the record this year in the slaughter returns, which already figure up to 156,000 head and will stand at 326,000 before the season closes. There is no record existing of any other establishment having such figures to shew.

The Banco Constructor v. Erhart was on before Judge Soneyra on the ex-parte motion of the defendant, alleging incapacity of the board to prosecute. The motion was dismissed with costs. The action, as will be remembered, arose out of the memorable letters written by Mr. Erhart in the *Diario*, and which were one of the principal factors in the great 1888 krach on 'Change.

In the La Plata Chambers yesterday Deputy Leanes presented a project prohibiting all further issues of Cedulas without previous authorisation of the Legislature. In his speech, introducing this excellent measure, Mr. Leanes dwelt forcibly on the alarm that is spread broadcast among holders of the stock by every fresh rumor of a new issue, and showed the advisability of preventing such rumors being credited. So long as the right of issue remains practically uncontrolled, the market is at the mercy of unscrupulous speculation. The bill was sent to the Finance committee for study and report.

Under date May 10th *Money* says:—

South American securities were again a weak spot. With the gold premium at Buenos Ayres jumping in a few days from 115.50 to 129.10, no other result could have been anticipated. Provincial Cedulas are to-day down 1 to 2, but no particular business has been done. Argentine Sterling bonds are also ½ to 1 lower, and certain Argentine and Buenos Ayres Railway stocks have been put down 1 to 2 in sympathy. It must not be inferred from these rather violent changes that the market is at all excited; as a matter of fact there are few important actual transactions taking place.

"The position, therefore, of the foreign holder, is not very secure. In respect to the National issues, he has, it is true, the direct guarantee of the National Government for principal and interest."

In a later number we find the following about Cedulas, which reads strange coming on the heels of the mammoth orders just filled for Europe:—

"But then as these are payable in depreciated paper, the more depreciated this paper becomes the easier it will be to liquidate the debt, and on the most disadvantageous terms to the foreigner. Still worse is the position of the holder of Provincial Cedulas, for it would seem he holds only the guarantee of the issuing bank. There seems to us to be little doubt but that such holders will, when the day of reckoning comes, suffer severely. They may think themselves fortunate if they can come to any reasonable arrangement with their guarantors."

The personal estate of the late Mr. Thomas Andrew Walker, of 15, Great George-street, the contractor for the Manchester Ship Canal, the Barry Dock, the Severn Tunnel and the Buenos Aires Port Works, who died at Chepstow on the 25th November last, aged 61 years, has been sworn of the gross value of £982,213, and of the net value of £551,694. He appoints as executors his two sons-in-law, Mr. L. P. Nott and Mr. C. H. Walker, with Mr. Thomas James Reeves, of King Street, Manchester, and gives them authority to carry on or discontinue his business, as they may think best. Mrs. Walker is to have for her life one-half of the income of the testator's property, which, subject to her life interest, is to be held in trust in equal shares for his four daughters, to whom, pending the calling in of his estate, £200 a year each is to be paid, and to Mrs. Walker £1 200 a year.

During the last few days all captains of sailing vessels arriving in the port of Montevideo report having experienced severe weather outside the River Plate. The captain of the Spanish brig Pronto from Barcelona reports that his vessel was greatly damaged in the rigging and masts, and cargo, and that many accidents must have happened to other vessels, as he passed many vessels' spars, pieces of decks and ship cabins floating. The captain of the Italian bq. Luige Rossi, from Boston, reports having experienced terrible storms; the deck cargo of his vessel was washed overboard, and the rudder was damaged. She also picked up a large spar which was floating off Rio Grande.

The *Rio News* makes the following humourous allusion to Uruguayan debt:—

"On the 5th the *Jornal de Commercio* says that, with interest calculated to March 31st last, Uruguay owes Brazil about 19,000,000$, in which are not included the expenses of the "pacificative division," which we presume to be the Brazilian army sent into Uruguay to preserve the peace many years ago. The amount is worth collecting, even with 50 per cent off for cash."

The dissolution of partnership of the firm of Beaumarie, Marquese and Co. was registered yesterday before Judge Cigorraga.

Mr. M. Comelino has been appointed to the post of Sub-Administrator of the Customs.

Wolseley Sheep Shearing Machine Company, limited.

MR WILLIAM ALISON, of Canonbar, N.W.S., writes under date 3rd September, 1889:

"I have gone in for the Wolseley machine shears, and you will be glad to hear that they are doing capital work. I sheared a couple of sheep with the machine shears, after they had been shorn by the old-fashioned shears, and got 6 ozs. from the one and 6½ ozs. from the other. These sheep were really creditably shorn by the shearers, and I quite believe that, take the average shearing through, I shall save at least ½ lb. of wool on each sheep. The sheep are turned out without a cut, and looking most happy and like pictures. One no longer has to pace up and down the shearing floor quietly indulging in bad language, for it is easier for the shearer to do the work well than badly. I feel satisfied that in the coarse of a few years very little shearing will be done by the ordinary hand shears.

"My shed having 60 machines, and being alongside the railway line, has been very largely visited by squatters and others, and not one but has been greatly delighted with the success. The tallies have reached 115, 104, 100, and so on per day. I believe that, before shearing is over, the whole sixty men will average 100 each. Such an average was quite impossible under the old system, owing to men being off with sore wrists, hands, etc.

* * * * * * * *

"I have already placed another order for 40 machines for the Meryualah shed. We had a lot of trouble at first, owing to a deficiency in combs and cutters. Wolseley, it appears, has been very slack in sending out sufficient quantities; in fact, the company has lost thousands of pounds through its inability to supply sufficient machines for new orders."

"Curative Paste"

BUCHANAN.

Colonia (B. O.), May 1890

Gentlemen—

Having recently accepted the Agency for the "Sale of Curative Paste" for this Republic, I have great pleasure in introducing this dip to your notice.

This dip has been found unrivalled by some of the largest Estancieros that have used it for some time past; and this great success has induced the manufacturer to bring it more prominently before the sheep-farming Republic.

As a cure of Scab it is the most effective, and as a preventive the most permanent that has ever been offered to the public. Scab CANNOT EXIST where "CURATIVE PASTE" is used.

As an economiser of time, labour and expense, it is decidedly the best; curings are less frequent, the necessity of extra men is avoided and consequently less expense incurred.

But in addition to this, we claim and can prove that sheep cured with this dip yield a vastly superior quality and greater quantity of wool than those cured with other dips.

These are advantages that a sheep-farmer cannot, and will not, overlook if he wishes to manage his animals profitably.

Try a sample and satisfy yourselves that in recommending "Curative Paste" to be the most effective, the safest and cheapest dip existing we do but claim that which is admitted by all who use it. (Vide testimonial.

Yours truly

ARTHUR JAS. KELLY.

Dr. J. Collis Browne's CHLORODYNE.

THE ORIGINAL AND ONLY GENUINE

Advice to Invalids.—If you wish to obtain quiet refreshing sleep, free from headache, relief from pain and anguish, to calm and assuage the weary achings of protracted disease, invigorate the nervous media and regulate the circulating systems of the body, you will provide yourself with that marvellous remedy discovered by D. J. Collis Browne, (late Army Medical Staff), to which he gave the name of CHLORODYNE, and which is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for Coughs, Consumption, Bronchitis, Asthma.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation, and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, &c.

From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simla, January 5 1880. To J. T. Davenport, Esq., 33, Great Russel Street, Bloomsbury, London! Dear Sir,—We embrace this opportunity of congratulating you upon the widespread reputation this justly esteemed medicine, Dr. J. Collis Browne's Chlorodyne, has earned for itself, not only in Hindostan; but all over the East. As a remedy for general utility, we must question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are so sorry to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances "ad infinitum" of the extraordinary efficacy of Dr. Collis Browne's Chlorodyne in Diarrhoea and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative that have occurred under our personal observation during many years. In Choleraic Diarrhoea, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's from a firm Conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a deliberate Breach of Faith on the part of the Chemist to prescribe and Patient alike. We are, Sir, faithfully yours, Symes and Co., Members of the Pharm. Society of Great Britain. His Excellency the Viceroy's Chemists.

Caution.—Vice-Chancellor Sir W. Page Wood stated that Dr J. Collis Browne, was, undoubtedly, the Inventor of Chlorodine; that the story of the defendant Freeman was deliberately untrue, which he regretted to say, had been sworn to.—See "The Times," July 13, 1864.

Sold in bottles at 1s. 1 1/2d., 2s. 9d., 4s. 6d., and 11s. each. None is genuine without the words "Dr. J. Collis Browne's Chlorodyne" on the Government stamp. Overwhelming medical testimony accompanies each bottle.

Caution.—Beware of Piracy and Imitations.
